2013

“Cultivating the Ultimate
Healthy Lifestyle for
Our Community “

Prepared by:

Toni DeAngelo, RN

WCA Community Health and
Wellness Director

WCA COMMUNITY HEALTH AND WELLNESS

MISSION and GOALS

To provide a comprehensive health education and disease prevention program that promotes healthy living and lifestyle choices which enhance the quality of the lives of the people of Chautauqua County

2012-2013 Goal: To follow along with WCA's key services and promote disease prevention programming for: Heart, Cancer, Orthopedic Health, Maternal and Child Health Primary Care, and Worksite Wellness

2013-2015 – Three Year Community Service Plan

To continue to be a partner on the Chautauqua County Health Planning Team, comprised of representatives from county hospitals and health organizations who together with the Chautauqua County Assessment and individual Community Service Plans will collaborate on goals and strategies of Prevention Agenda items identified as health priorities for Chautauqua County.

2013 Community Service Plan – Collaborative (WCA CSP 2013-2015 separate document)

The three identified health priorities are:

Prevent Chronic Diseases

Focus Area(s): Reduce Obesity in Children and Adults

Disparity: Low-income residents

Promote Healthy Women, Infants, and Children

Focus Area(s): Preconception and Reproductive Health,

Maternal and Infant Health

Disparity: Pregnant mothers who use drugs

/drug addicted newborns

(Not including TLC Health Network or Westfield Memorial Hospital)

Promote Mental Health and Prevent Substance Abuse

Focus Area(s): Strengthen Infrastructure Across Systems

WCA Community Health and Wellness Notable Achievements

WCA Hospital Community Service Plan and Chautauqua County Health Department Collaboration 2013-2015

The Chautauqua County Health Planning Team (CCHPT) partners involved along with WCA Hospital in the joint planning sessions for the Chautauqua County Community Health Assessment (CHA) the Community Health Improvement Plan (CHIP) and individual Community Service Plan (CSP) processes are: Chautauqua County Health Department, Chautauqua County Health Network, Chautauqua County Mental Health, Lake Erie regional Health System of New York (Brooks and TLC), The Chautauqua Center, and Westfield Hospital and P2 Collaboration of WNY

Since the initiation of the county health collaborative in 2009, the partners decided to name the group the Chautauqua County Community Health Planning Team (CCHPT) which is how they are still referred as to date. Identification of community health needs and selection of Prevention Agenda Priorities from the New York State Department of Health , were done through community input, focus groups and assessing county and organizational data.

WCA Cardiovascular Disease Risk Factors Addressed:

Tobacco use, Obesity, Lack of Physical Activity and Good Nutrition Choices, Stress Management

Partners

- Serta America's Mattress
- Fluvanna Fountain Bowl
- Five Star Bank

What We Know

- Cardiovascular disease (CVD) is a general category of diseases that includes **coronary heart disease, diabetes, congestive heart failure, and cerebrovascular disease (stroke)**. Consistent with New York State as a whole, statistics from the NYSDOH Vital Statistics indicated that in 2011, the leading cause of death in Chautauqua County was heart disease. There were 452 deaths to heart disease in Chautauqua County, resulting in a rate of 231 per 100,000 residents. (NYS Vital Statistics Leading Causes of Death by County, NYS, 2011) The Chautauqua County rate for **congestive heart failure** was significantly higher than New York State as a whole. For all subgroups, the rates in Chautauqua County were greater than the state comparison groups **Stroke**, or cerebrovascular disease, was the fourth leading cause of death in Chautauqua County in 2011. In total, 82 deaths were caused by stroke, with a rate of 43 deaths per 100,000 residents. (NYS Vital Statistics Leading Causes of Death by County, NYS, 2011) While the age-adjusted **diabetes** hospitalization rate per 10,000 in Chautauqua County (12.6) was lower than its state comparisons, the age-adjusted diabetes mortality rate per 100,000 was much higher in Chautauqua County at 21.4 compared to 17 in New York State and 15.1 in New York State excluding New York City.

What We Did 2013

- **Community Events:** Heart health education and awareness activities in schools, outreach organizations, churches and industry and schools
- **WCA Strike Out Heart Disease** – community bowl a thon for heart disease awareness
- **Cardiovascular Screenings:** blood pressure, body composition testing, tobacco use analysis, diabetes risk factor screening .
- **WCA Employee Worksite Wellness activities** promoting healthy heart choices such health risk assessments, blood pressures, body composition testing, physical activity and nutrition programs, monthly health e-tips, walking programs, tobacco cessation counseling and worked with Independent Health to provide programming for nutrition/physical activity programs.
- **Navigation** of the community and employees to all resources available to them for weight management, physical activities and tobacco cessation services
- **Free tobacco cessation education** and services to employees and community.
- Collaboration with Independent Health to provide employees with incentives for WCA employees to make an attempt quit tobacco use.
- **Maintained a tobacco free environment** on all WCA property since 2010.

PRE-DIABETES/Diabetes

- **Diabetes Task Force** implementation with area healthcare facilities / CSP
- **Diabetes Prevention Program – 16 week class for prediabetics (Dr. order required) with one year follow up**
- **Diabetes Education Services** provided by Certified Diabetes Educator
- **WCA Farmers Market Express** – easy access of fruits and vegetables for employees and community members (See also under WCA Worksite Wellness and Cancer)
- **WCA Raised Gardens** – provides fruits and vegetables to WCA employees and community members

Cardiovascular Risk Factor Assessment

- WCA Cath Lab Patients –Risk Assessment Sheets with Healthy Lifestyle referrals to Wellness
- Blood Pressure Screenings
- Body composition testing
- **Tobacco**
- 2013 WCA Hospital continues to maintain tobacco free facility status
- Two-minute tobacco cessation initiative – All identified in patients are asked “Are you ready to Quit Tobacco Use?” by nursing staff with referral to Wellness for tobacco cessation consult.
- Free tobacco cessation sessions to community members/WCA employees- Fresh Start Program
- Referrals to NYS Quit Line for nicotine replacement therapy
- Participant in the Tri-County Tobacco Control Program for county resource and advocacy programs

Media/Marketing

- Time Warner Cable : The Medical Update : Topics, Tobacco Cessation, Heart Health, Diabetes, Physical Activity, Weight Management and Stroke prevention.
- WJTN, SE 93 radio spots regarding healthy heart lifestyle
- Jamestown Post Journal, Penny Saver
- Refer community to walking routes, paths and seasonal activities available in Chautauqua County
- Health e-tips via e-mail to all employees regarding risk factors for heart disease and prevention.

Cardiovascular Goals and Strategies 2013

Goal 1 - Risk Factor Stratification and Education to low risk cardiac patients.

Objective: 100% of cath lab patients will receive cardiac education regarding tobacco use, obesity, stress and hypertension and diabetes

Strategies: - Cardiac Risk Assessment Form to Identify Risk Factors

-American Heart Association Controlling Your Risk Factors

-Refer patients to Wellness for tobacco cessation program and other risk factor education needs

Outcomes: 2013: 100% of cath lab patients educated on cardiac risk factors
9 patients referred to Wellness for tobacco cessation with
6 making a quit attempt

Goal and objective for 2013-2015 CSP: Increase tobacco cessation quit attempts to 10% using the NYS Smokers Quit Line Fax to Referral Form

Goal 2 - Community Diabetes Task Force/CSP Decrease Childhood Obesity –

Collaboration with local health organizations i.e. Boys and Girls Club, Falconer School, United Way, YMCA, CCHN, and Chaut.Co. Health Dept on ways to promote healthy lifestyles in school systems – Farm to School, Farmers Markets (See Physical Activity and Nutrition)

Goal for 2013- Provide healthy choice classes for overweight/obese children ages 8-14.

Strategies – Find funding to support **Weigh to Go Kids** Program at WCA Hospital or in community Referrals from PCP's and pediatricians - obtained

Goal obtained – Weigh to Go classes to start in September 2014

Goal 2b: *See WCA CSP page 17 for Goals/Objectives/Strategies – Evidence based Diabetes Prevention Program*

Goal 3 – Provide Wellness Program Tobacco Cessation to in patients

Strategies –

•Offer 2 minute intervention to those identified as tobacco users and are ready to make a quit attempt

•Monitor 2 minute intervention question on patient flow sheet **“are you ready to make a quit attempt” with a referral to Wellness**

2013 Outcome: 2 minute intervention referrals 15
25% made quit attempts

Goal for CSP 2013- 2015: Increase quit attempts to 50 % of referrals from 2 minute intervention

Goal 4 – Increase tobacco cessation participation among community members and WCA Employees

Objective – 20 % more referrals and will be referred to NYS Quit Line for NRT and cessation counseling via Fax to Quit Form

Outcome 2013 Quit attempts fell 25% - 2 industries did not participate in Tobacco Free for Life classes

Goal for CSP 2013 - 2015 : Increase participation in cessation sessions by 20%

- Facilitation of Maximizing Mammography Participation program for increased adherence to breast screening guidelines of women 40 years and over who miss, cancel or have not had a mammogram. (Komen)
- WCA Farmers Market (6 weeks) open to community to promote the benefits of plant based nutrition and it's role in prevention of certain cancers. Cancer education available each week/nutrition services.
- Facilitation and implementation of WCA Palliative Care Program
- Facilitated 3 American Cancer Society Look Good Feel Better Programs at the WCA Cancer Treatment Center.
- WCA Raised Garden Project
- Distress Screening Tool for inpatient cancer patients
- Plant based nutrition classes for cancer patients and their families

Media/Marketing

- Post Journal articles , Radio PSA's on risk factor awareness and prevention of breast cancer, ovarian cancer, lung cancer (tobacco)
- Health e tips on Cancer Prevention to WCA employees

Cancer

Continued

Goals, Objectives and Strategies for 2013

Goal 1 - Increase awareness and referrals to WCA Patient Navigation Program

Objective - 50% more referrals to Patient Navigation Services will be made by physician offices and nursing departments

Strategies-

- Provide Patient Navigation DVD to all doctor ofc, nursing and surgical depts.
- Provide Reach to Recovery Information to all doctors offices, nursing depts. and surgical departments for breast cancer patients.
- Promote patient navigation services via the media/marketing quarterly, on website, radio, tv and newspaper
- Increase community participation and awareness of Lily's Hope Services
- Increase mammography screening through Maximizing Mammography Participation

Outcomes 2013: over 100% referrals to Patient Navigation

Goals 2013-2015 : **Continue** to provide Patient Navigation to through certified breast health nurse and patient navigation for general cancer services.

Goal 2 – Increase adherence of women over 40 years of age to complete mammogram screening appointments at WCA Imaging through phone navigation counseling, scheduling and incentives. (Funded through a grant from the Susan G. Komen Foundation.

Evidenced Based Programing: Research Tested Intervention Program, National Cancer Institute - Maximizing Mammography Participation

Objectives: 250 women will complete their missed, canceled or no show mammogram appointments

Strategies: WNY Komen for the Cure grant application renewal for phone navigator

Outcomes 2013: Grant funding obtained for April 2013 – March 2014 250 women who were late or due for a mammogram **completed** their mammogram.

Goal 2013: 250 women will complete their missed, canceled or no show mammogram appointment through phone navigation. 500 of those women notified by phone will also be educated on breast health and screening guidelines.

Grant application submitted to Susan G. Komen WNY to Continue Maximizing Mammography Participation for 2013-2014 along with funding 2 breast navigators for WCA Womens Imaging.

Goal 5 – Increase knowledge of benefits of plant based nutrition in the reduction of preventions and recurrence of cancer to cancer patients and their caregivers

Objectives: - 70% of cancer treatment patients at the Cancer Treatment Center will participate in the plant based nutrition classes in 2014

Strategies: Offer free nutrition classes to all cancer patients – inpatient and undegoing radiation therapy at the WCA Cancer Treatment Center.

YMCA
Independent Health

What We Know

- Over 33% of the U.S. population is obese, and two thirds of Americans are overweight.
- An estimated \$18.2 billion in productivity is lost due to health-related issues each year.
- The price of obesity in a company with 1,000 employees is about \$285,000 per year in increased medical costs and absenteeism.
- 70% of diseases are due to lifestyle -- the major reason being inactivity.
- WCA has been the leader of worksite wellness in Chautauqua County since 1984. Ultimately, one of the most ambitious goals of any comprehensive health promotion program is to attempt to influence the attitudes and actions of the organization's most valuable resource -- its employees. Studies show that a healthy workforce benefits the organization by improving morale, reducing turnover and absenteeism, while containing health care costs.

What We Did For Employees

All programs are free to WCA Employees

- WCA Walking at Work and Working Out at Work programs
- Health Risk Assessments & Body Composition Testing
- Wellness at Heart Screening – Blood pressures
- Tobacco cessation programs and 1-1 counseling for employees and family members
- Employee Support Group or Buddy for tobacco users
- WCA and JMHC exercise rooms for employees
- WCA Farmers Market
- Monthly Health e-tips for healthy lifestyle living
- Healthy Lifestyle newsletters from Independent Health
- Great American Smokeout health education and promotion
- All in house and community activities promoted through flyers, e-mail, WCA HR Communicator, Health Link and Website
- Weigh in with Wellness coaching program
- Health e-tips weekly
- Promotion of physical activity programs in the community with advocacy toward discounts for WCA employees

Goals, Objectives and Strategies for 2013

Goal 1 Increase participation in worksite wellness physical activity and nutrition programs

Objectives : 20% more employees will participate in walking, exercise room, nutrition and health education programs

Strategies:

- Promote WCA health programs at management team, e-mail, time clock bulletin boards and employee portal.
- Collaborate with Occupational Health on providing information to new hires and or at employee physicals
- Promote all physical activities county wide so employees can choose healthy activities that they like to do.
- Collaborate with Nutrition Services to provide healthy choice options with appropriate information in cafeterias/vending
- Work with Independent Health to provide resources and assistance in obtaining a dashboard of employee health data to better focus wellness programming on disease prevention.

Employee Health Continued

- **Outcomes 2013:** See data attached for Employee health program participation.
- 100% Occupational Health presented all employees with a WCA Wellness brochure that explains Wellness services and resources for tobacco, weight management, stress, healthy lifestyle choices and nutrition programs.
- 100% of participants in the Weigh to Go either maintained or lost 1% –10 % of body fat per 8 weeks of the program. Participation rates maintained throughout.
- Increased usage of the WCA Employee exercise room newly located on the 2nd floor of the hospital.

Goals for 2013-15

- Increase participation in Worksite Wellness Programs by 10%
- Heart Health Check – to assess worksite for healthy heart lifestyles -completed
- Readiness Survey to all employees to get a bigger picture of the percent of employees who want to change their behaviors to more healthier lifestyles. Also to direct wellness programs that are of interest to them.-completed
- Locate are fitness options for employees to participate in.-completed
